R. H. EDDY,
Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Eaq., of Rostton did businessat the Patento Rice, as Soligitor
of proparing Patents. There were few, if any,
persons acting in that capucity, who had so much
business before the Patent Office; and there were
none who conducted it with more skill, fidelity and
success. I regard Mr. Eddy a wone of the best informed and most skillful Patent. Solicitors in the
United States, and have no hesitation if assuring

WEDNESDAY BORNING, NGV.21, 1855

An incredible story is telegraphed from Washington to the New York Tribune. 'c the effect that before Col. Kinney left for Nicaragua he proposed to the Russian minister, M. Stocki, to involve the United State in a difficulty with England about Cuba. One element of his proposal was that the affair should be brought to blundshed. M. Stockl promptly and decisively refused the offer.

INVASION OF IRRLAND,-"A chizen of the United States" furnished the London Times with a very dignified and truthful answer to the assaults upon this country recently made in the columns of that jour nal. In regard to the rumor 'invasion' of the Emerald Isle, the writer said : 'To Ireland the only invasion ever attempted from our shores was an invasion in 1847 hy American ships, which were loaded with grain to feed its then starving popula-

If you have great talants, industry will improve them; if moderate abilities, indutry will supply their deficiencies. Nothing is denied to well-directed labor; nothing is ever to be attained without it. Remember, a man's genius is always in the begining of life as much unknown to him self as to others and it is only after frequent trials, attended with success, that he dares think himself equal to the under taking in which those who have succeeded have fixed the admiration fof mankind.

IMPORTANT TO SEAMEN.-U. S. Commissioner Loring, at Boston, has decided that whipping a seamon with a rope's end is not flogging, within the meaning of the statute. Flogging is a technical naval net, performed by the proper officers, according to certain formalities, and inflicted with an instrument known as a "cat."

WHALE FISHING AT THE CAPE .- Great excitement provailed among the whatemen a: Provincetown, Mass., Saturday moraing occasioned by a whale being seen off that place. To LABORING YOUNG MEN. - Solomon. the wise man, tells us, that 'we should not fail to get understanding."

Young men-those of you who are dependert on your labor for sustenance, and who have been left penniless in the world without any education, upon economy you must base your hope of saving to yourself the necessary time and means to enable you to store y ur minds with such useful knowledge of human offairs as will enable you to become useful and worthy members of society, that when duty calls you into action, you may be found qualified to act well your part.

You should use strict economy in your gard to the tashions; for if you do, they will always keep you poor. Do not be afraid to beat a Yankee trader down in his price, nor think it is mean to do so, but buy as cheap as you can by fair means, and remember that it is frequently the case that low priced goods outlast those of a high price. If you go to purchase a hat, select a good fifteen or eighteen shilling one, instead of a 'tip-top five or seven dollar hat. and wear it as long as it boks decent for a Sunday go-to-meeting hat, and then put it on for every day use. If it last two years, it will be none too long, though the fashion of that article may have changed half a dozen times in that period. And use a like economy in every article of dress.

Those of you, young men, who have been living up to your means, suppose each commence economizing, and save the next year, say thirty dollars, and just see what you can do with that little som.

Now let us suppose a case, and see what the result may be. For instance, a young man who has just completed his sixteenth year of age, has saved thirty dollars from his last year's carnings, and suppose that sum be expended as follow: Newspaper, \$5; letter writing materials and postage, \$5 ; schooling, \$5 ; use of book from library, \$3; books to replenish private library. \$5 ; a pair of shoes for some poor person, \$3; and let the remaining \$5 be deposited in some savings bank, with directions for the dividends to be added to it as they fa one, so hat it will draw compound interest.

Perhaps the young man may think the \$5 deposit in the bank of but little account but lot us figure upon it, and see what may be the result. Suppose he continues to deposit \$5 a year, without drawing out any portion of the deposits, till he is 35 years old, a period of 20 years, and when it may be stated that Shelly was burned he arrives at the age of 36, when he ought hy Lord Byron, pursuant to request; and to be laying up a large sum per annum, even if he has a family let him deposit \$40, and continue to deposit that sum in the bank every year till he arrives at the are making any withdrawals. When he arrives at the age of 58 suppose he draws out \$160, and cominge to draw that sum from the bank yearly till he is 90 years old, I he lives to that good old age, a period of 33 years, beginning with the first \$40 deposit and its earnings, and ending with the last \$6 deposit and its earnings, supposing there is no loss, and that each deposit doubles every eleven years. Thus it will be perceived that the whole amount of deposits made will have been \$630, and that the total amount of yearly income, at the expiration of the 90th year of his age, will have been \$5,280.

Young men, just think what a profly little annual income this would be to aid one in closing life's journey, especially if, though infirmity, he should be unable to labor at the age of 58, and fortune had not blessed him with any other means of support.

Remember, young men, that economy and understanding is wealth and power -- Pen-

Excitise Incident .- From the Pittsburg Post we learn the circumstances of the following thrilling incident; The Blairsville train on the Pennsylvania railroad was under full hendway when the engineer Mr. W. Willis, espied something on the track which he supposed to be a lost package, but when within one hundred and seventy-five feet he discovered it was a little child, of fourteen months, sitting on a cross-tie. He rapidly cut of the steam and applied the brakes, while the fireman J. Snyder, got upon the steps at the side of the engine, waiting till the momentum of the train should be sufficiently checked to allow him to spring off, run in rdvance, and snatch the child from destruction.-He did so by great exertion, gaining such by inch on the train, seized the child, and handed it safely to its father; while the cars stopped within fifteen feet of where it had been sitting.

A Good RETORT .-- A humarons young man was driving a horse which was in the habit of stopping at every house on the roadside. Passing a country tavera, where were collected together some countrymen, the beast, as usual, ran opposite the door, and then stopped, in spite of the young man, who applied his whip with all his might to drive the beast on.

The men on the porch commenced a hearty laugh, and some inquired if he would sell the horse.

"Yes," replied the young man, "but I cannot recommend him, as he once belonged to a butcher, and stops whonever he hears the calves bleat."

I this age of progress. The following is from a distinguished member of the medical profession:

St. Paul, J. Janeary 1, 1855.

Prof. O. J. Wood, "these Sir—Unablicited, I send you take centificate. After being nearly ball for a long time, and having, rivel all the hair restoratives extend, and have go no faith in any, I was induced on hearing of yours, to give it a trial. I placed myself in the hands of a barler, and had my head well rubbed with a good slift brish, and the Restorative then applied and nell rubbed in, till the sculp was all a glow. This I repeated every morning, and in three weeks the young lear appeared, and give rapidly from August hast up to the present time, and is now thick, black, and strong—saff and pleasant to the touch, whereas before it was shorth and wirry, what tolds there was of strand the challe was disappearing rapidly. I still use your flustrative about twice a week, and shall soon have a good and perfect crop of hair. Now I have read of these things—and who has not 2—but have never seen hitherto, any cross in which any purson's hair was really benefitted by any of the hair forner, See, of the day; and it really gives me pleasane to record the result of my experience. I have recommended your preparation to others, and it already has a large and general safe throughout the Territory. The propie here saw its effects, and have confidence in it. All who have used it here, will coincide with me in what I have written.
